Ashutosh Singh

SKILLS

- ❖ **Programming Languages:** C, C++, Java (Basic)
- ❖ **Data Structure & Algorithms (DSA), FTPC**
- ❖ **Frontend:** HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, AJAX
- ❖ **Frameworks & Libraries:** React.js, React Native, Next.js
- ❖ **Backend:** Python, Django, Flask, Django Rest Framework (DRF)
- ❖ **Databases:** SQL, SQLAlchemy, MSSQL Server
- ❖ **Backend:** Python, Django, Flask, Django Rest Framework (DRF)
- ❖ **Tools:** Git, GitHub

EDUCATION

- ❖ Master of Computer Application (MCA) | Manipal University (Sep'23 – Present)
- ❖ Bachelor of Computer Application (BCA) | MGKVP 71.38% | (Nov'20 – Sep'23)
- ❖ XII (CBSE) | S.G. Public School 73.80% | 2019

EXPERIENCE

- ❖ **Full Stack Developer Intern | Techpath, Mughalsarai (Dec'22 – Jun'23)**
Developed website frontends with HTML, CSS, Bootstrap, React, and Tailwind CSS and contributed to backend using Flask and Django.
- ❖ **Full Stack Developer | Techpath, Mughalsarai (Jul'23 – Feb'24)**
 - Developed a MissLaundry mobile app with React Native and FastAPI.
 - Developed a project management task system using Django implemented all the backend functionality focusing on employee tracking leave and asset management.
- ❖ **MES FTPC Implementation & Support | Tata Motors, Pantnagar (April 24)**
 - Providing support to the relevant team as per the requirements.
 - Developed various screen using FTPC which will fetch data and display.

PROJECTS

- ❖ **GYM Management System**
 - Developed a fully responsive website with next.js, framer-motion, Django.
 - Integrated all the backend functionality like user authentication and email.js to send email.
 - Designed a user-friendly interface and animation for seamless navigation.
 - I have hosted this on vercel and the link is: <https://fitphysique-omega.vercel.app/>
- ❖ **E-Commerce Website**
 - Developed a fully functional ecommerce website using next.js, django, razorpay, framer-motion and django rest framework for creating api.
 - Integrated api for creating and retrieving order, cart and for fetching product.
- ❖ **Weather App**
 - Developed a weather app using react.js and open weather map api for fetching the weather details of the city.
 - I have hosted it on vercel and the link is: <https://weather-app-pi-nine-52.vercel.app/>
